Examiner:

Catheryne Chen

Response to Office Action dated August 24, 2007

Filing date: May 17, 2006 Attorney Docket: 31923 Group Art Unit: 1655

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. (Currently Amended) A composition comprising at least three plant extracts wherein said composition is effective in altering the perception of at least one malodor by affecting at least one olfactory receptor wherein said three plant extracts are selected from the group consisting of frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
 - 2. (canceled)
- 3. (Currently Amended) The composition of claim 2claim 1, comprising four plant extracts selected from the group consisting of frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
- 4. (Currently Amended) The composition of elaim 2claim 1, comprising five plant extracts: frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
 - 5. (Canceled).
- 6. (Currently Amended) The composition of claim 2 claim 1, wherein said frankincense comprises between about 0.1% and about 40% by weight of the composition.
 - 7-12. (Canceled).
- 13. (Currently Amended) The composition of claim 2claim 1, wherein said extract of roses comprises between about 0.1% and about 40% by weight of the composition.
 - 14-17. (Canceled).
- 18. (Currently Amended) The composition of elaim 2claim 1, wherein said extract of *Cananga* comprises between about 0.1% and about 40% by weight of the composition.
 - 19-22. (Canceled).
- 23. (Currently Amended) The composition of elaim 2claim 1, wherein said extract of *Piper* comprises between about 0.1% and about 60% by weight of the composition.

Response to Office Action dated August 24, 2007

Filing date: May 17, 2006 Attorney Docket: 31923 Group Art Unit: 1655

24-26. (Canceled).

- 27. (Currently Amended) The composition of claim 2claim 1, wherein said extract of *Bursera* comprises between about 0.1% and about 22% by weight of the composition.
- 28. (Currently Amended) The composition of elaim 2claim 1, further comprising at least one auxiliary component selected from the group consisting of vanillin, ethyl vanillin, extract of *Hedychium*, extract of *Menta*, extract of *Citrus* and mixtures thereof.
- 29. (Previously Presented) The composition of claim 28, wherein said auxiliary component comprises up to about 60% by weight of the composition.

30-42. (Canceled).

43. (Currently Amended) The composition of elaim 2claim 1, further comprising benzyl benzoate.

44. (Canceled).

- 45. (Currently Amended) The composition of elaim 2claim 1, further comprising an aldehyde component.
- 46. (Previously Presented) The composition of claim 45, wherein said aldehyde component comprises a mixture of one or more hydrocarbon aldehydes of a structure RCH=O, wherein R is selected from the group consisting of aryl and alkyl groups.

47-48. (Canceled).

- 49. (Previously Presented) The composition of claim 45, wherein said aldehyde component comprises between about 0.1% and about 55% of the composition.
- 50. (Currently Amended) The composition of elaim 2claim 1, further comprising amyl salicylate.

51-52. (Canceled).

53. (Currently Amended) The composition of elaim 2claim 1, wherein said amyl salicylate comprises between about 0.1% and about 55% by weight of the composition.

54-58. (Canceled).

Response to Office Action dated August 24, 2007

Filing date: May 17, 2006 Attorney Docket: 31923 Group Art Unit: 1655

59. (Previously Presented) A composition comprising, frankincense, extract of roses, as, extract of *Cananga*, extract of *Piper* and extract of *Bursera*.

60-67. (Canceled).

68. (Previously Presented) The composition of claim 59, wherein said frankincense comprises between about 0.1% and about 40% by weight of the composition.

69-74. (Canceled).

75. (Previously Presented) The composition of claim 59, wherein said extract of roses comprises between about 0.1% and about 40% of the composition.

76-79. (Canceled).

80. (Previously Presented) The composition of claim 59, wherein said extract of *Cananga* comprises between about 0.1% and about 40% by weight of the composition.

81-83. (Canceled).

84. (Previously Presented) The composition of claim 59, wherein said extract of *Piper* comprises between about 0.1% and about 60% by weight of the composition.

85-87. (Canceled).

88. (Previously Presented) The composition of claim 59, wherein said extract of *Bursera* comprises between about 0.1% and about 22% by weight of the composition.

89-102. (Canceled).

103. (Previously Presented) An article of manufacture comprising the composition of claim 1 and a carrier.

104. (Canceled).

105. (Previously Presented) The article of manufacture of claim 103, wherein said carrier is selected from the group of fabric-care products, personal hygiene products, air-freshening products, cleaning products and cosmetic products.

106-113. (Canceled).

114. (withdrawn) The article of manufacture of claim 103, wherein said carrier is a liquid.

Response to Office Action dated August 24, 2007

Filing date: May 17, 2006 Attorney Docket: 31923 Group Art Unit: 1655

115. (Canceled).

116. (Previously Presented) The article of manufacture of claim 103, wherein said carrier is a viscous fluid.

117-125. (Canceled).

126. (withdrawn) The article of manufacture of claim 103, wherein said carrier is a solid.

127-131 (Canceled).

132. (withdrawn) A method of reducing the negative effects of malodor on an individual comprising positioning a composition of claim 1 so that vapors emanating from said composition affect olfactory receptors of the individual thereby reducing the negative effects on the individual of malodor emerging from a source of malodors at a location.

133. (Canceled).

- 134. (withdrawn) The method of claim 132, wherein said source is selected from the group of agriculture, amines, body odor, cigarette smoke, compost, dairy industry, gangrenous wounds, garbage, human feet, diapers, dirty laundry, halitosis, bad breath, lesions, livestock, manure, mercaptans, sewage, sludge, smoke, swine, tobacco, trash compactors, tumors, smoke, stale sweat, ulcers, unwashed humans, vomit, waste water, rotting proteins, decomposing proteins, burned proteins, abscesses, urine, viscera, offal, feces, ammonia, amines produced during the putrefaction of proteins and indoles produced during the putrefaction of proteins and combinations thereof.
- 135. (withdrawn) The method of claim 132, wherein said location is selected from the group consisting of clinics, dental clinics, hospitals, surgical wards, mass graves, morgues, battlefields, abattoirs, industrial plants, sewers, earthquake loci, collapsed buildings, sewage processing plants, tanning plants, animal handling areas, barns, cancer wards, changing rooms, clarifiers, coal mines, composting sites, crematoria, diaper pails, dormitories, feed lots, garbage dumps, garbage processing plants, kennels, landfills, laundry rooms, leather processing plants, locker rooms, lumber mill, meat processing plants, milking parlors, mines, nursing homes, old age homes, outhouses, paper mills, photographic products manufacturing plants, poultry processing plants, prisons, rendering plants, settling basins, sewage dewatering systems, sludge stations and sport centra and combinations thereof.
- 136. (withdrawn) The method of claim 132, wherein said composition comprises an auxiliary component selected from the group consisting of vanillin, ethyl vanillin or a combination thereof.

Response to Office Action dated August 24, 2007

Filing date: May 17, 2006 Attorney Docket: 31923 Group Art Unit: 1655

- (withdrawn) The method of claim 136, wherein said source is found in 137. a location selected from the group consisting of hospitals, surgical wards, mass graves, morgues, battlefields, abattoirs, earthquake loci, collapsed buildings, and combinations thereof.
- (withdrawn) The method of claim 132, wherein said composition 138. comprises extract of Hedychium.
 - (Canceled). 139.
- (withdrawn) The method of claim 138, wherein said source is found in 140. a location selected from the group consisting of hospitals, surgical wards, cancer wards, nursing homes, old age homes and combinations thereof.
- (withdrawn) The method of claim 132, wherein said composition comprises extract of Menta.
- (withdrawn) The method of claim 141, wherein said individual is a pregnant woman.
- (withdrawn) The method of claim 132, wherein said composition 143. comprises extract of Citrus.
- (withdrawn) The method of claim 143, wherein said source includes a source selected from the group of fire, cigarette smoke, tobacco, burned oil or protein (flesh), charred protein (flesh) and smoke.
 - 145. (Canceled).
- (withdrawn) The method of claim 132, wherein said positioning comprises positioning said composition in the vicinity of said source or placing said composition at said location.
 - 147-148. (Canceled).
- (withdrawn) The method of claim 132, wherein said positioning comprises of the individual.
 - 150-152. (Canceled).
- (withdrawn) The method of claim 132, wherein said positioning comprises contacting said source of malodor with said composition.
 - 154. (Canceled).
- (Previously Presented) The composition of claim 59, further comprising at least one auxiliary component selected from the group consisting of

vanillin, ethyl vanillin, extract of Hedychium, extract of Menta, extract of Citrus and mixtures thereof.

(Previously Presented) The composition of claim 59, further 156. comprising benzyl benzoate.

- (Previously Presented) The composition of claim 59, further 157. comprising an aldehyde component.
- (Previously Presented) The composition of claim 59, further comprising amyl salicylate.
- (Previously Presented) A composition useful in preparing a 159. composition effective in altering the perception of at least one malodor by affecting at least one olfactory receptor comprising at least three different plant extracts, said three plant extracts selected from the group consisting of frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
- 160. (New) The composition of claim 159, comprising at least four different plant extracts selected from the group consisting of frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
- (New) The composition of claim 159, comprising at least five different plant extracts: frankincense, extract of roses, extract of Cananga, extract of Piper, and extract of Bursera.
- (new) The composition of claim 1, wherein said extract of Piper is 162. extract of Piper auritum.
- (new) The composition of claim 59, wherein said extract of Piper is 163. extract of Piper auritum.
- (new) The composition of claim 159, wherein said extract of Piper is extract of Piper auritum.
